

SHIVER 750

AKRAPOVIC SLIP-ON MUFFLERS

The E3 Akrapovic mufflers kit has been developed to offer a consistent weight reduction (-4,3kg), an extremely sporty look and a better sound. They have been homologated for euro3 (noise and pollution) and do not need ECU modifications.

Furthermore, they are provided with a stainless steel undertail protection, a new support for plate holder and a pair of carbon fibre heat protections on the pipes that prevent the passenger from being burned in case of accidental contact.

Designed for the Shiver 750, by the Noale Factory. Anti-scratch material and easy to fit.

Code: 858081

TANK COVER

Outside material in extremely resistant polyester.

It has been through technical tests and the product is anti wear and tear, and fuel resistant. Inside the material is soft and the paint won't be damaged.

Before fixing the tank cover you can even put a thin film in electrostatic PVC. The film can be washed and reused.

It is provided with fasteners for the easy fitting of the Tank bag.

Code: 856953

TANK BAG

14 lt bag made in extremely resistant Polyester.

You can easily fix it with the 3 fasteners and its size won't hinder your movement while you're riding, and your dash will be in perfect view.

You can also use it as a practical bag and its material is waterproof.

Code: 856952

REAR FARING BAG

To fulfill all your needs, made in extremely resistant polyester. Easy to fit with the 4 fasteners.

Code: 856954

BIKE COVER

It will assure complete protection for your bike. The material is elasticised and it has been made in Italy with particular attention to detail.

Code: 854612

Soft Side Cases

Dynamic safety and protection for your belongings. Made from high-tech material, extremely easy to fit and remove. These special semi-rigid cases are designed and made specifically for the bike, to ensure perfect weight distribution and control while riding.

Complete with reflective trim for better visibility at night. Their capacity is 42lt for each, and they have a practical zipper. Complete with rainproof cover and non-slip handles for easy carrying when cases are removed from the bike.

Code: 856955

Side Case Supports

Strength with functionality, made from high-strength material, sanded and cataphoretically treated against corrosion and wear. Fully compatible with side cases, without affecting the Shivers design and appearance, thanks to the special integrated design.
